## Maryland Higher Education Enrollment Growth Continues to Break Records

The following report highlights enrollment data submitted by the State's colleges and universities. Final numbers may vary slightly due to students enrolling or dropping out by November 15, the last date on which 2004 enrollment figures are reported to the Maryland Higher Education Commission.

- Total headcount enrollment at Maryland's colleges and universities rose by 1.7 percent, or 5,070 students, to a **record high** of 311,136.
- During the past 20 years, total enrollment in Maryland has grown by 33 percent. This marks the eighth year in a row of enrollment increases.
- Public four-year universities were responsible for 61.9 percent of the statewide increase, growing by 2.3 percent. Community colleges, which grew by 1.2 percent, accounted for 27.7 percent of the statewide growth. Independent institutions increased by 1.0 percent and represented 10.4 percent of total growth.
- Forty-two percent of the statewide enrollment increase was attributable to a 1.6 percent rise in the number of full-time undergraduates. Full-time undergraduates have grown for 11 consecutive years-- by 30.8 percent since 1993. Full-time undergraduate enrollment increased in all sectors: at community colleges (2.1 percent), public four-year colleges and universities (1.6 percent), and independent institutions (0.5 percent).
- Part-time undergraduate enrollment increased for the fourth consecutive year, increasing by 1.7 percent overall. At the community colleges, part-time enrollments remained steady (rising by less than 1 percent). The number of part-time undergraduates at the public four-year institutions rose by 4.7 percent. This increase was due almost entirely to an 11.3 rise (1,763 students) at University of Maryland University College.

- The number of first-time, full-time students increased by 2.3 percent to an all-time high of 35,166. First-time enrollments rose by 7.7 percent at the independent campuses and by 2.5 percent at the public four-year institutions, but remained flat (dropping by 0.2 percent) at the community colleges.
- Full- and part-time graduate and professional enrollments were the highest on record, driven by an increase in part-time students. The number of full-time students stayed almost the same, while part-time enrollments increased by 2.9 percent. This is the eighth straight year of growth for graduate and professional enrollments.
- Among public four-year institutions, growth at UMUC accounted for 75.1 percent of the overall growth in all undergraduates (Towson University made up 13.6 percent of the growth, while Morgan State University was responsible for 10.3 percent). All but two of the State's public four-year institutions increased their total undergraduate enrollment over last year. Undergraduate enrollment decreased slightly at Frostburg State University and University of Maryland College Park.
- Eleven of the 16 community colleges experienced headcount enrollment gains. Montgomery College increased by the most students: 583, a 2.6 percent gain. The highest percentage increase occurred at Hagerstown Community College (10.1 percent and 324 students). Enrollment declined at Garrett College, Cecil Community College, Community College of Baltimore County, Frederick Community College, and Prince Georges Community College.
- TESST College of Technology experienced the greatest gain in undergraduates among the independent institutions both in terms of numbers and percentages. Undergraduate enrollment soared by 835 students or 42.7 percent in the past year. Without TESST, the independent sector would have witnessed a decline in undergraduates.
- Women continued to outnumber men at Maryland colleges and universities, representing 59.3 percent of all students. Women made up 64.7 percent of the total enrollment growth at the State's campuses.
